Summer Assignments
June 2021

DP Core Summer Assignments

Area	Level	Assignment
CAS	Seniors	2 Activities per month. Complete the CAS process as defined by Mr. White's CAS guide . You will have limited time to submit activity reflections this year, so use the summer to catch up.
Extended Essay	Seniors	<p>Conduct research according to your summer plan.</p> <p>Commit 4 hours per week throughout the summer should put you in great shape to start your senior year.</p> <p>Stay organized, make a schedule, keep track of all resources, and add to your RRS along the way.</p> <p>Return to your subject guide often to make sure you aren't straying from your subject guidelines.</p>

Course-Specific Summer Assignments

Group 4		Chemistry HL/SL
Incoming SL Chemistry -and- Incoming HL Chemistry Juniors (HL1)	11th/12th	For SL/HL1: Summer Prep Packet covering essential topics from sophomore chemistry. The packet, along with other helpful info, is also available on the Schoology page for next year. Email Mr. Calvin (brad_calvin@roundrockisd.org) if you do not have access.
Incoming HL Chemistry Seniors (HL2)	12th	<u>For HL2:</u> Review the Summer Prep Packet covering essential topics from the first year of HL. The packet, along with other helpful info, is also available on the Schoology page for next year. Email Mr. Calvin (brad_calvin@roundrockisd.org) if you do not have access. Review your IA topics as well, and consider whether you want to keep the topic for next year!
Group 5		Math Analysis SL
Incoming Math Analysis students (from OnRamps or Advanced Precalculus)	11th/12th	Summer assignment covering precalculus content. Please check Mr. Bell's website for access to the summer assignment, the answer key, and links to helpful videos for a lot of the material.
